amendment for

WINE.

Voters had time to make their choice, on the roll call, on the bill introduced by Senator Jones, who has so much of the credit from Congress for the senatorial election.

In favor of the bill of the affirmative cast by a majority of Arkansas. Messrs. Brown, Grimes, Gronouski recorded in opposition. Senator Harrison expressed his opposition. He said he would abstain in voting.

AT THE BEACH ARE PITCHERS ARELLANO, Pape and Hunt of the Sacramento team; Pitcher Moser of Oakland and Left Fielder Perry, late of Sacramento.

TRANCE BELIES NAME.

Scores Easy Victory in Feature Event at Jueves Race Track—Leads From the Start.

JUEVES (Mex.) Feb. 24.—Trance scored a very easy victory in the fourth race, the feature of the card at Terenas Park, today. She led from the start and won by three lengths. Summary:

Five furlongs: Jim Mc won, Beechmont second, Emma L. third; time, 1:03 1-2. Footfall, Joe Wells, Double F. Tralafar, Ben Wilson, Eleanor Strubling, Petite Oiseau also ran.

One and one-sixteenth miles: Sallan won, Col. Bronston second, Sam Barber third; time, 1:50 4-5. Yenne, Sink Spring, Lady Elizabeth, Dixie Dixon, Waldorf Belle, Tuckmaster also ran.

Seven furlongs: Jupiter Joe won, Vreeland second, H. Stick third; time, 1:37 1-2. Beaumont also ran.

Six furlongs: Trance won, Margorie A. second, Harrigan third; time, 1:13 4-5. Enfield also ran.

Six furlongs: The Pippin, Ocean Queen, 119; Intrigue, Flying Foot, steps, Balrona, 107; Jeanne d'Arc, 105. Mile: Barney Oldfield, Hannia, 111; Taskmaster, Ben Ton, Direct, The Peer, 107; Melles, 105. The Methodists.

Five and one-half furlongs: Capt. Carmody, 117; Love Not, 112; Sebago, Pawhuska, Pluvius, 107.

Six furlongs: Fanny, 113; Virgil Case, Aunt Nancy, 110; E. M. Frye, Gene Wood, Thurbet, He Knows, 109; Biskra, 105; Flying Pearl, Hannah Louise, 107; Hoops, 95; Quartermaster, 97.

Six furlongs: Chapultepec, 112; The Wolf, 112; Beaumont, Creston, 110; Emma G., 107; Sallan, 107; Dubois, 92.

JACKSONVILLE RESULTS.

JACKSONVILLE (Fla.) Feb. 24.—Princely captured the feature event, Summary:

Five furlongs: Rhasneth won, Borrower second, Woolpin third; time, 1:02 3-4.

Four furlongs: Working Lad won, Marguerum second, Senator Sparks third; time 0:58 3-4.

Six furlongs: Golden won, Fort Carroll second, Orson third; time 1:14.

Mile and a sixteenth: Princely won, T. M. Green second, Aldrian third; time 1:24 3-4.

Five and a half furlongs: Dress Park won, Royal Onyx second, Strike Out third; time 1:08 3-4.

Six furlongs: Parkview won, Ben Double second, Casque third; time 1:09 3-4.

Results at Tampa.

TAMPA (Fla.) Feb. 24.—Ladies' day with the gentlemen riders' race as the feature and one of the best cards offered at the meet, combined to bring out a large number of spectators. The feature was won by Mr. Langford on Haymarket. Results:

Five and a half furlongs: Luck Mate won, Donald second, Cassowary third; time 1:12.

Six furlongs: Hancock won, Topsy Robinson second, My Love third; time 1:12 3-4.

Five furlongs: Beverstein won, B. J. Swanner second, Chantute third; time 1:05 3-4.

Six furlongs: Rodman won, Lady Maxim second, Inspector General third; time 1:20 4-5.

Five furlongs: Haymarket won, John Garner second, Bertmont third; time 1:07 3-4.

Mile and a sixteenth: Sweet Owen won, Vance second, Louis Kats third; time 1:26 3-4.

ATHLETIC RESULTS.

NEW HAVEN (Conn.) Feb. 24.—Statistics compiled at Yale University show that 54 per cent. of the men taking active part in athletics there did corresponding work while in preparatory school. Curiously, practically every man who has won his "Y" in the history of the university has previously won his preparatory school letter. Nearly 90 per cent. of the men who have won other athletic rewards at Yale took part in the same sport at Yale too. Of the preparatory schools which send men to Yale, Exeter has had the greatest percentage of its graduates successful in sports.

NEW RACING PLAN.

WHEELING (W. Va.) Feb. 24.—Gov. William E. Glasscock is expected to attach his signature today to the "pooling bill" passed by both branches of the Legislature on Wednesday. The bill forbids the operation of poolrooms in the State, but legalizes pool selling at the tracks. Horsemen who have been actively using the bill at Charleston say they believe it makes a certainty that the establishment of a racing plant at Chester, W. Va.

WHITE BEATS GARY.

MILWAUKEE, Feb. 24.—(Exclusive Dispatch.) Jack White of Chicago trimmed a good boy tonight when he defeated Tommy Gary, the seventh, Gary having been knocked down twice for the count of nine and being all right on his feet when the referee counted ten. Gary made a good fight, but his second knockdown broke his wrist in the third and from then on White had things his own way.

NEW BOXING BILL.

LANSING (Mich.) Feb. 24.—At the request of many athletic clubs in the State, Senator Carter last night introduced a bill providing for a new boxing decision boxing committee, with five members, providing no prize are awarded. As Gov. Osborn and many of the legislators have gone on record as favoring such a committee, the bill has an excellent chance of becoming a law.

MISCELLANEOUS.

SAN ANTONIO (Tex.) Feb. 24.—The balloon Miss Sofia, with W. F. Anderson and J. M. O'Reilly of St. Louis, aboard, ascended 100 feet at 6:47 p.m. and flew northwest on its long distance flight. The balloonists hope to capture the Lahn cup.

Remarkable Golf Score.

NORFOLK, Feb. 24.—In the golf tournament today the Footfalls golf links of 900 yards length, Harold W. Rutledge, a local player, defeated his opponent, H. L. Rutledge, by a score of 40 to 42. The score is 41 and the record is 43. There were 45 golfers here, and further tournaments will be held.

Hyland Beats Sheppard.

NEW YORK, Feb. 24.—(Exclusive Dispatch.) Fighting Joe Hyland of the West Side knocked out Lew Sheppard in the eighth round of the open-weight title fight at the open-air arena of the Preston Athletic Club in Harlem.

AT THE BEACH ARE PITCHERS ARELLANO, Pape and Hunt of the Sacramento team; Pitcher Moser of Oakland and Left Fielder Perry, late of Sacramento.

Five and one-half furlongs: Capt. Carmody, 117; Love Not, 112; Sebago, Pawhuska, Pluvius, 107.

Six furlongs: Fanny, 113; Virgil Case, Aunt Nancy, 110; E. M. Frye, Gene Wood, Thurbet, He Knows, 109; Biskra, 105; Flying Pearl, Hannah Louise, 107; Hoops, 95; Quartermaster, 97.

Six furlongs: Chapultepec, 112; The Wolf, 112; Beaumont, Creston, 110; Emma G., 107; Sallan, 107; Dubois, 92.

JACKSONVILLE RESULTS.

JACKSONVILLE (Fla.) Feb. 24.—Princely captured the feature event, Summary:

Five furlongs: Rhasneth won, Borrower second, Woolpin third; time, 1:02 3-4.

Four furlongs: Working Lad won, Marguerum second, Senator Sparks third; time 0:58 3-4.

Six furlongs: Golden won, Fort Carroll second, Orson third; time 1:14.

Mile and a sixteenth: Princely won, T. M. Green second, Aldrian third; time 1:24 3-4.

Five and a half furlongs: Dress Park won, Royal Onyx second, Strike Out third; time 1:08 3-4.

Six furlongs: Parkview won, Ben Double second, Casque third; time 1:09 3-4.

Results at Tampa.

TAMPA (Fla.) Feb. 24.—Ladies' day with the gentlemen riders' race as the feature and one of the best cards offered at the meet, combined to bring out a large number of spectators. The feature was won by Mr. Langford on Haymarket. Results:

Five and a half furlongs: Luck Mate won, Donald second, Cassowary third; time 1:12.

Six furlongs: Hancock won, Topsy Robinson second, My Love third; time 1:12 3-4.

Five furlongs: Beverstein won, B. J. Swanner second, Chantute third; time 1:05 3-4.

Six furlongs: Rodman won, Lady Maxim second, Inspector General third; time 1:20 4-5.

Five furlongs: Haymarket won, John Garner second, Bertmont third; time 1:07 3-4.

Mile and a sixteenth: Sweet Owen won, Vance second, Louis Kats third; time 1:26 3-4.

ATHLETIC RESULTS.

NEW HAVEN (Conn.) Feb. 24.—Statistics compiled at Yale University show that 54 per cent. of the men taking active part in athletics there did corresponding work while in preparatory school. Curiously, practically every man who has won his "Y" in the history of the university has previously won his preparatory school letter. Nearly 90 per cent. of the men who have won other athletic rewards at Yale took part in the same sport at Yale too. Of the preparatory schools which send men to Yale, Exeter has had the greatest percentage of its graduates successful in sports.

NEW RACING PLAN.

WHEELING (W. Va.) Feb. 24.—Gov. William E. Glasscock is expected to attach his signature today to the "pooling bill" passed by both branches of the Legislature on Wednesday. The bill forbids the operation of poolrooms in the State, but legalizes pool selling at the tracks. Horsemen who have been actively using the bill at Charleston say they believe it makes a certainty that the establishment of a racing plant at Chester, W. Va.

WHITE BEATS GARY.

MILWAUKEE, Feb. 24.—(Exclusive Dispatch.) Jack White of Chicago trimmed a good boy tonight when he defeated Tommy Gary, the seventh, Gary having been knocked down twice for the count of nine and being all right on his feet when the referee counted ten. Gary made a good fight, but his second knockdown broke his wrist in the third and from then on White had things his own way.

NEW BOXING BILL.

LANSING (Mich.) Feb. 24.—At the request of many athletic clubs in the State, Senator Carter last night introduced a bill providing for a new boxing decision boxing committee, with five members, providing no prize are awarded. As Gov. Osborn and many of the legislators have gone on record as favoring such a committee, the bill has an excellent chance of becoming a law.

MISCELLANEOUS.

SAN ANTONIO (Tex.) Feb. 24.—The balloon Miss Sofia, with W. F. Anderson and J. M. O'Reilly of St. Louis, aboard, ascended 100 feet at 6:47 p.m. and flew northwest on its long distance flight. The balloonists hope to capture the Lahn cup.

Remarkable Golf Score.

NORFOLK, Feb. 24.—In the golf tournament today the Footfalls golf links of 900 yards length, Harold W. Rutledge, a local player, defeated his opponent, H. L. Rutledge, by a score of 40 to 42. The score is 41 and the record is 43. There were 45 golfers here, and further tournaments will be held.

Hyland Beats Sheppard.

NEW YORK, Feb. 24.—(Exclusive Dispatch.) Fighting Joe Hyland of the West Side knocked out Lew Sheppard in the eighth round of the open-weight title fight at the open-air arena of the Preston Athletic Club in Harlem.

NEW YORK CROWD JEERS PRETTY WEARER OF FIRST HAREM SKIRT.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Feb. 24.—[Exclusive Dispatch.] The appearance of a Los Angeles club and E. P. Gates at the newest thing in a skirt, the harem skirt, discussed "harem" on Park Row this afternoon, almost necessitated calling out reserves to clear the way.

The Avenue de l'Opera was the scene of one of the most serious outbreaks. The woman, being surrounded by a laughing, jeering crowd, was unable to proceed, and a man, taking advantage of the occasion, purchased a basket of eggs from a dealer in a side street and distributed them among the other men, who, when ordered to disperse, refused to do so. What they considered unadvisable conduct, pelted the helpless wearer of the new garment until a squad of police intervened and aided the woman to escape.

Doubts appear to have arisen among the leading Paris dressmakers as to whether the skirt will be adopted as the general fashion. But few have been ordered thus far and these have gone chiefly to women from abroad who were shopping en masse and wished to have the latest sensation.

Many have been sent to America.

MORDED IN MADRID.

(ASSOCIATED PRESS NIGHT REPORT.)

MADRID, Feb. 24.—Two women belonging to the most exclusive society circles of the capital, appeared on the street last evening wearing the new Paisley trousers-skirts and were fairly mobbed.

The crowd, which grew rapidly to great proportions, surrounded the exponents of advanced fashion and, after insulting cries, threatened violence. A large force of police cleared the streets.

Prosen.

WOMAN EGGED IN PARIS.

(ASSOCIATED PRESS NIGHT REPORT.)

PARIS, Feb. 24.—Incidents of the disturbances accompanying the appearance in the streets of women wearing the new trousers-skirt, occurred daily.

THE AVENUE DE L'OPERA WAS THE SCENE OF ONE OF THE MOST SERIOUS OUTBREAKS. THE WOMAN, BEING SURROUNDED BY A LAUGHING, JEERING CROWD, WAS UNABLE TO PROCEED, AND A MAN, TAKING ADVANTAGE OF THE OCCASION, PURCHASED A BASKET OF EGGS FROM A DEALER IN A SIDE STREET AND DISTRIBUTED THEM AMONG THE OTHER MEN, WHO, WHEN ORDERED TO DISPERSE, REFUSED TO DO SO. WHAT THEY CONSIDERED UNADVISABLE CONDUCT, PELTED THE HELPLESS WEARER OF THE NEW GARMENT UNTIL A SQUAD OF POLICE INTERVENED AND AIDED THE WOMAN TO ESCAPE.

DOUBTS APPEAR TO HAVE ARISEN AMONG THE LEADING PARIS DRESSMAKERS AS TO WHETHER THE SKIRT WILL BE ADOPTED AS THE GENERAL FASHION. BUT FEW HAVE BEEN ORDERED THUS FAR AND THESE HAVE GONE CHIEFLY TO WOMEN FROM ABROAD WHO WERE SHOPPING EN MASSE AND WISHED TO HAVE THE LATEST SENSATION.

MANY HAVE BEEN SENT TO AMERICA.

DEATH STALKS TRAIL-BREAKER IN ALASKA'S SNOWY WASTES.

(ASSOCIATED PRESS NIGHT REPORT.)

NOME (Alaska) Feb. 24.—Lieut. Solomon B. West, U.S.A., was frozen to death yesterday while stalking a trail five miles from Tishou, during the severest blizzard ever known here.

Mrs. Davenport, wife of a Deputy United States Marshal, and for whom Lieut. West was marking the trail, walked into Tishou through the snow and reported the lieutenant's death. Deputy Davenport went out, found the body and brought it in.

Lieut. West, who was a native of New Hampshire and 33 years old, enlisted in the First New Hampshire Volunteers as a private at the outbreak of the Spanish-American War, and in 1901 entered the regular army as second lieutenant of the Twenty-second Infantry. He went to Alaska with his regiment last June.

WEST'S GOOD RECORD.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Feb. 24.—Lieut. West had made an excellent military record, serving in the tropics and under the Arctic Circle with credit.

His most notable achievement was in the Philippines, when, in October, 1905, he commanded one of the detachments under Maj. McCoy, which ran down the notorious Alibates, who had been the scourge of Mindanao from the beginning of American occupation of the islands. Datto Ali was strongly entrenched in the swamps, but West, with some other troops, made a remarkable "blitz" of considerably more than 100 miles, penetrated the marshes, took Ali in the rear by surprise and captured him. The end of the insurrection in Mindanao.

Returning from the Philippines, Lieut. West went to Alaska with the Twenty-second Infantry. When that regiment was brought home last year West was so much attached to the country that he exchanged into the Eighteenth Infantry, which was replacing the Twenty-second, and remained there.

PROSPECTOR PERISHES IN BLIZZARD'S GRASP.

(ASSOCIATED PRESS NIGHT REPORT.)

VANCOUVER (B. C.) Feb. 24.—James McEvoy, a prospector, a native of Hillsdale, Ont., perished in the mountains near Rock Bay, Vancouver Island, several days ago. He and two companions, beguiled by recent fine weather, went into the hills and were overtaken by a furious blizzard. McEvoy succumbed. His companions went to the nearest settlement for aid and returned, and on returning found McEvoy dead.

Flight.

ROTHSCHILD YACHT, ASHORE OFF CUBAN CAPE, APPEALS FOR AID.

(ASSOCIATED PRESS NIGHT REPORT.)

CAPE SAN ANTONIO (Cuba) Feb. 24.—At Cape San Antonio, Cuba, Feb. 24.—The yacht Atmah, owned by Baron Rothschild, was ashore off the south side of Cape San Antonio on the south side of the island. The vessel is in no immediate danger.

REPORTS WRECK OF YACHT.

(ASSOCIATED PRESS NIGHT REPORT.)

HAVANA, Feb. 24.—The French Minister here has received a wireless dispatch from Cape San Antonio, saying that the French steam yacht Atmah has been wrecked at that place.

No particulars of the accident have been received here. The Minister has arranged to send a steamer to Cape San Antonio to assist the Atmah.

ATMAH'S CREW SAVED.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, Feb. 24.—A United Wireless message received from Tampa tonight also reported the yacht Atmah ashore near Cape San Antonio. It was added that assistance had been asked of Havana, but no further particulars were available.

The steam yacht Atmah is owned by Baron Edmond de Rothschild, a member of the banking firm of Rothschild Brothers of Paris. She flies the flag of the Yacht Club of France and was last reported in southern waters at Barbados, January 30.

senative of the United States at the peace conference.

Negotiations between the factions were resumed on board the United States cruiser Taconic yesterday. Gen. Maximino B. Rosales represents Bolivia, and Dr. Alberto Membrano is looking after the interests of Bolivia. Mr. Dawson is acting as adviser and mediator.

When the session opened Dr. Membrano read a telegram from Bolivia in which the revolutionary chief announced his withdrawal of his candidacy for provisional President in order, he said, to promote peace and facilitate the work of the conference. He suggested for the election of a temporary occupant of the Presidency the names of Dr. Membrano, Fausto Davila, a step-brother of the present President, and Francisco Berrondo.

On the other hand, Gen. Rosales advanced the names of Antonio Lopez Arizaga, Daniel Fortin and Senor Cordova, any of whom, he said, would be acceptable to the government faction.

Neither list was acceptable to the opposing side, and Gen. Rosales then suggested that Mr. Dawson select a President from the six names. Dr. Membrano replied that the revolutionary forces would not agree to have the American commissioners choose a man if an agreement otherwise were impossible.

WOMEN SEEK VOTES OF NEGRO.

Missouri Suffragettes Want the Ballot So Bad That Colored Brother Is Rolling in Clover.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS (Mo.) Feb. 24.—[Exclusive Dispatch.] Mrs. Florence Wynman Richardson, President of the St. Louis branch of the Equal Suffrage League and wealthy society woman, will address a gathering of negro men and women at No. 217 Pine street Saturday night on women's suffrage. This she believes to be the forerunner of an active campaign. So determined are Missouri suffragettes to get suffrage the first time they present a petition for it that in endeavoring to get voters on the side they are not letting a single opportunity escape. They will speak anywhere and everywhere. Society women will forego engagements in the pressure of the suffrage campaign.

YEAR APART BEFORE DIVORCE.

Plan of Theatrical Couple to Adjust Differences Meets Approval of Society Leaders and Jurists.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Feb. 24.—[Exclusive Dispatch.] A year's separation as a cure for divorce was the plan approved today by society leaders, club women, jurists and lawyers who were led into a discussion of the question by the ac-

ASKS FOR STATEHOOD.

President Recommends to Congress That New Mexico's Constitution Be Approved.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Feb. 24.—President Taft transmitted to Congress today the certificate of the officers of the territory of New Mexico as to the vote on the Constitution of the State at the elections held January 21, and accompanied it with the recommendation that Congress approve the new Constitution. The President points out that the enabling act provides that the Constitution shall be submitted to the President and Congress for approval and that if the President approves it and Congress fails to do so at this session, the President shall have power to authorize the Governor of New Mexico to issue his proclamation for an election of State officers. The President says the Constitution was prepared in accordance with the act of Congress, has been duly ratified by the people of New Mexico and should receive the approval of Congress.

HAYTIAN TOWN BURNS.

PORT AU PRINCE (Hayti) Feb. 24.—The city of Aux Cayes, has been almost completely destroyed by a fire which broke out yesterday and fanned by a strong wind, spread rapidly through the place. The monetary loss is heavy and considerable suffering has been caused. There were rumors of incendiarism, but it is said the fire originated from an accident. Aux Cayes has a population of about 25,000.

FENDER SAVES WOMAN.

Mrs. Mary Jane Quensbury of No. 1876 East Thirty-ninth street, was severely injured about the limbs and body last night when she was struck by an interurban car at Thirty-ninth street and Long Beach avenue. She was taken to a local hospital and was in charge of Motorman Beauchamp. She was saved by the fender from being crushed to death beneath the wheels.

Oil Tank Steamer Has Trying Time Battling Elements With Loaded Barge in Tow.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA (Wash.) Feb. 24.—[Exclusive Dispatch.] Union Oil Company tank steamer Washenaw, which arrived today from San Francisco with oil for the Northern Pacific, had a stiff battle with the elements to keep possession of the oil barge Fullerton on her passage north.

The Fullerton broke her hump yesterday when the tug Lorene was necessary to make use of a steel cable before she would hold.

The Washenaw was met at the mouth of the tug Lorene by the Puget Sound Tugboat Company, which took the barge from the oil tanker and towed her to Esquimalt.

As the Washenaw had not cleared for British Columbia when she left San Francisco, it was necessary to have some tug that had cleared from Puget Sound to British Columbia take the barge. The Washenaw would have lost time had she gone to Esquimalt and would then have had to clear from British Columbia territory to America.

Rev. Dr. Rogers Israel, for eighteen years pastor of St. Luke's Church, Scranton, Pa., has been consecrated third bishop of the Protestant Episcopal diocese of Erie.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena. THUM READY FOR ALL QUESTIONS.

Specialist on Water Problems
of the Crown City.

Says Present Supply Must Be
Augmented Soon.

Growth and Dry Seasons
Would Cause Trouble.

(Office of The Times, 28 E. Raymond avenue.)

PASADENA, Feb. 25.—The present supply of water about Pasadena is just about enough to supply the present population in wet years and with an increase in population an additional supply must be secured, was the verdict of a majority of the members of the Board of Trade Water Committee last night.

The meeting was probably the most interesting yet held because the discussion was a serious one. William Thum, secretary, and the directors of the board, and questions were fired at him from all sides. He has probably made a more thorough study of the water situation than any other man in the city and had a limited supply of vital figures at his tongue's end. As the questions were hurled at him he rose to the occasion, and in a clear and decisive manner gave a full answer to each one.

"Can any more water be developed, that's what I want to know," asked Chairman Magee.

"I believe it can and I believe if the city owned the water plants that it could then go ahead and do development work."

"Do you not think it would be well to find out that matter before the city went to work and spent a large sum of money for the plants?" said Lockwood. Then followed a discussion in which Thum convinced Magee that, without doubt, more water can be pumped to the surface than is now being pumped, but at the same time the water level would be lowered.

"I would like to ask T. D. Allen if the statement made by the directors of the water companies that there is enough water here for a city many times the size of Pasadena, is correct?" asked E. H. May.

"No, most decidedly no," replied Allen. "I not only assert that to be a fact, but I know it to be a fact."

Thum went into detail to show the measurements which he made during the past year to show that the water in the Copelin well was lowered last summer when the pumps were going and did not raise until the rains began. He also explained fully that there are three water basins and defined the boundaries of each basin. He also stated that the statements of various engineers bore out the fact that if a reservoir were built at Devil's Gate it would save but a small quantity of water; not enough to do much good in dry years. "As long as we will have to go elsewhere for water and buy it at a high price I think it would be well to get a little more and save the great expense of building a dam at Devil's Gate which, at best, will not do much good. All the water which we could possibly save by such a dam is not worth a fraction of what it would cost to build the dam," said Thum.

Magee was finally convinced, or at least appeared to be convinced, that Thum knew what he was talking about and that statements made by officials of the local water companies, to the contrary, were made by those interested in selling water and for that reason could not be relied upon altogether for their accuracy.

Thum is a candidate for Mayor and the opposition to him has questioned his accuracy in figures on the water question, but it was the unanimous feeling of the members of the committee, last night, that he is not far off and that if he were elected he would be in excellent position to make rapid progress in trying to settle the old water question, which has kept the city in a turmoil for many years.

FAVOR WOMEN VOTING.

The campaign of education to create a sentiment in Pasadena in favor of woman's suffrage was safely launched last night at the First Universalist Church, when the auditorium was crowded to the doors to hear what the speakers had to say.

The meeting was in charge of Mrs. Seward A. Simons, president of the Political Equality League. After making a short statement of the objects of the league and the campaign to be carried on, she turned the chair over to J. H. Braly, former president of the league.

Braly made a strong plea in the interest of the movement, saying that women need the right of the ballot for their own protection; the protection of the home; the future progress of California, he declared, will be brought about by both men and women equally interested and with equal power. He did, however, admit that the poor men have some rights and stated that men should always have equal privileges but no more.

The next address was by Mrs. Andrew Stewart Lobinger, of Denver, who spoke in favor of the bridge across the Arroyo Seco at Colorado street and opposed consolidation with Los Angeles. She was opposed to building a dam across the arroyo at Devil's Gate, because it would turn the arroyo waters into the San Gabriel River. "Women will have the right of the ballot because they are doing civic work," she said.

Samuel W. Allerton, multi-millionaire farmer and packer, made a strong plea for woman's suffrage. Women will purify the franchise, will study the right of franchise for the good of the country; will bring up children to be better men and women. Men will have more respect for women," he said. Other addresses were made by Charles G. Neely of Pomona and Mrs. Martha Washburn.

CONVENTION OPENS.

All yesterday afternoon and last evening the trains brought Christian Endeavorers to this city. It was estimated last night that fully 300 visiting delegates to the nineteenth annual convention of the Los Angeles county Christian Endeavor Society were in town. Early yesterday morning Colo-

rado street was strung with the little orange and purple "C. E." pennants. The convention was formally opened last night at the Pasadena Presbyterian Church where all the meetings of the three days' convention will be held. The first number on the program was the ringing of the chimes, followed by a praise service led by Shirley Shaw of Claremont. This devotionals were led by the Rev. James H. Lamb, county pastoral counselor.

At 8 o'clock Mayor Thomas delivered the address of welcome to the city and Rev. Robert Freeman welcomed the visitors to Pasadena on the part of the churches. The response to the welcome speeches was delivered by F. A. McBurney, vice-president of the society. The principal address of the evening's session was delivered by Rev. Dr. J. Whitcomb Brewster, pastor of Temple Baptist Church, Los Angeles, on "Personal Evangelism."

There will be three sessions today. The morning meeting will begin at 8:30 o'clock, when H. W. Kellogg of Los Angeles will give a talk on "Bible Study." Rev. Wallace E. Gill, pastor of Friends Church, Los Angeles, will speak on "Quiet Hour Session." The Tenth Legion session will be held in an hour and a half at 1:30 p.m. Frank Wiggins and Rev. John Bentzen, both of Los Angeles, the Missionary session will be held at 11:15 o'clock.

The afternoon session will open with a praise service at 1 o'clock which will be followed by the business session. The conference will begin at 2:30 o'clock. At 5 o'clock there will be a banquet, at which Dr. John Willis Baker will be the guest of honor. McGrew of Whittier will deliver an address, "The Power of a Consecrated Life." T. E. Stevenson of Inglewood will speak on "The Bible." Mrs. E. P. Rosier of Los Angeles will sing a solo, which will be followed by an address by F. D. Moore of Sierra Madre, on "A Good Citizen." Leon V. Shaw will speak on "After the Convention, What?"

The night session will begin with a street meeting, led by Lewis and Hanney. The praise service will begin at 7:30 and will be followed with the conventional service. J. P. Wells, State president, will deliver an address on "The Christian Endeavor Pledge." Harry H. Goddard of Pasadena will be the next speaker on "The Equipment for Service." Paul C. Brown, State field secretary, will speak on "The Field Large." The session will be followed by Karl Lehmann of Boston, inter-state field secretary, on "The United Society of Christian Endeavorers."

FAIRBANKS ARRIVES.

Ex-Vice-President Fairbanks of Indianapolis arrived in the city yesterday morning to spend a couple of months with his family. Mr. Fairbanks arrived here December 1 and took a room for the winter at No. 227 Oaklawn avenue, next door to the home of Mr. and Mrs. Frederick C. Fairbanks, son and daughter-in-law of the former Vice-President.

"Just here for a little rest and to enjoy some of your beautiful Southern California climate," he said yesterday. "Everything looks fine out here, and this country is making great advancement. The future certainly looks bright, and with the opening of the Panama Canal, this should be the best country in the world." He could not forego the pleasure of keeping out the sun all day just to get all the sunshine he could. He and Mrs. Fairbanks were out riding several hours.

GUN WAS LOADED.

The nice little pistol handed to the City Council by the Municipal Light League, and in turn given over to the consumers of city electricity at last Tuesday's Council meeting in the form of electric light globe for cost, just like all the other things, has been loaded. The city engineer bore out the fact that if a reservoir were built at Devil's Gate it would save but a small quantity of water; not enough to do much good in dry years. "As long as we will have to go elsewhere for water and buy it at a high price I think it would be well to get a little more and save the great expense of building a dam at Devil's Gate which, at best, will not do much good. All the water which we could possibly save by such a dam is not worth a fraction of what it would cost to build the dam," said Thum.

Magee was finally convinced, or at least appeared to be convinced, that Thum knew what he was talking about and that statements made by officials of the local water companies, to the contrary, were made by those interested in selling water and for that reason could not be relied upon altogether for their accuracy.

Thum is a candidate for Mayor and the opposition to him has questioned his accuracy in figures on the water question, but it was the unanimous feeling of the members of the committee, last night, that he is not far off and that if he were elected he would be in excellent position to make rapid progress in trying to settle the old water question, which has kept the city in a turmoil for many years.

FAVOR WOMEN VOTING.

The campaign of education to create a sentiment in Pasadena in favor of woman's suffrage was safely launched last night at the First Universalist Church, when the auditorium was crowded to the doors to hear what the speakers had to say.

The meeting was in charge of Mrs. Seward A. Simons, president of the Political Equality League. After making a short statement of the objects of the league and the campaign to be carried on, she turned the chair over to J. H. Braly, former president of the league.

Braly made a strong plea in the interest of the movement, saying that women need the right of the ballot for their own protection; the protection of the home; the future progress of California, he declared, will be brought about by both men and women equally interested and with equal power. He did, however, admit that the poor men have some rights and stated that men should always have equal privileges but no more.

Santa Monica. RECORD YEAR FOR BEACH TOWN.

BUILDING PERMITS AGGREGATE
HALF MILLION DOLLARS.

Plans Are Under Way for the Construction of a Broad Walk From Santa Monica to the Mouth of the Canyon—Several Streets to Be Improved.

SANTA MONICA, Feb. 25.—Already this year building permits have been issued for more than \$155,000 worth of new houses, and applications are on hand for \$25,000 worth of structures to be placed on the new pier at Marine street. Lumbermen, contractors and real estate builders say the season's activities are just beginning. There are indications that the total for the year will not fall far below a million dollars, as the Polytechnic High School will represent an outlay of a quarter of a million dollars, and the mountain roll, dance hall and revolving restaurant on the new pier are yet to be counted in the sum of the year's work.

WALK TO CANYON.

At the High School banquet of boosters, Carl Schader made the statement on the authority of the Santa Monica Land Company that within sixty days a broad walk will be commenced on the beach, to extend from Colorado avenue northward as far as the mouth of the canyon. The construction of the walk is something over a mile and a half, it will be seen that the improvement as proposed is to be one of immense proportions. The city engineer is authority for the statement that work is to be started within thirty days on the new pier. This is to be located in Seaside terrace, where a \$3000 contract for street work was let during the summer of 1924.

Other public improvements include the paving of Ocean avenue, the boulevarding of Seventh street at an estimated cost of \$25,000, and the grading and paving of Fremont avenue from the ocean to the city limits on the east.

The Santa Monica Land Company is planning the development of the city east of Seventh street. This work will include street paving, sidewalks, curbs, the introduction of gas and water and the building of sewers. Simultaneous with this development, the Southern Pacific plan to construct a new cross-town trolley line to be operated by the Los Angeles Pacific. This road will run from Santa Monica to the city as far south as Venice, affording a line removed about eight blocks from the ocean. The road will be the construction of this line on Eighth street.

APARTMENT-HOUSE.

The contract has been let for the construction of the Johnson apartment-house on Ashland avenue. This is to contain twelve three-room apartments. The structure will cost \$14,000. The building will be a two-story structure. This is to be located at No. 125 Hill street. Work has been ordered by the contractor, J. P. Milbank. This is located on Adelaide drive in the Palisades. E. W. Murphy has acquired a five-acre tract on San Vicente boulevard and will improve it with a 7000 lot.

ALONG THE OCEAN FRONT.

Along the ocean front in the vicinity of Kinney, Raymond and Ashland avenues the Thompson Railway Company is planning to build a scenic railway to be known as the "Dragon's Gorge," as it is to be a force of seventy men can be employed in the construction of the structure for the opening of this new attraction by April 15, but it will probably be ready for operation by June 1. The structure will accommodate twenty-four different business houses. Many of these have already been rented and several of them will be occupied by March 1. On the new pier work is also being rapidly prosecuted on the scenic railway that is to be operated by the city. The structure is to be a two-story building. The contractor is F. D. Howe of Chicago.

RELIGIOUS REVIVAL CLOSING.

Gardena Churches Unite in a Soul Saving Crusade—Converts Are Given a Reception.

GARDENA, Feb. 24.—The three weeks' union revival meeting in Gardena closed with a reception to the new converts. It was a unique service. Dr. Armstrong preached a short sermon on "Steadfastness," and a social hour and refreshments were enjoyed by those present.

During morning Rev. Clark will preach on the "Obligations of the Church." In the evening the subject will be, "The Convert's New Song." This was the last service.

AT THE BAPTIST CHURCH.

This church has been undergoing repairs. The pastor is alive to the fact that it pays to be kind, and affable to all. The services next Lord's Day will be as follows: Bible school at 9:45 a.m. Preaching at 11 a.m. subject, "Christ Before Pilate, or the Trial of the Innocent One." In this case the pastor will hold regular court, showing both the prosecution and defense. This should be a treat to all Christians. B.Y.P.U. meeting, 7:30, subject, "The Loss of Power When We Turn Away from God." Preaching every Sunday morning at 8:45 in the parlors of the church, to which all are cordially invited.

NEWS BRIEFS.

Simon Scoville of Los was the guest last week of his old-time friend, A. A. Cary.

The hotel here has been given notice that a surveying party of eleven will be here soon to be engaged upon survey of the municipal railroad from Santa Monica to the city.

J. W. Barnett, who has been ill for some time, was taken to the Good Samaritan Hospital to be treated for stomach trouble.

The San Pedro Foundry and Machine Company, has traded Los Angeles property for the Smith place on Reese street, near the mouth of the river.

J. Read, living at the corner of Central and Vermont avenues, lost from his lawn a fifty-foot hose which some thief appropriated Friday night.

Gardena, Chapter O.E.S., was honored by a visit from the district deputy

grand matron, Lucile Irene Meade, Thursday night. She had only words of praise for the officers in the performance of their work. The chapter presented Mrs. Meade with a beautiful loving cup as an appreciation of their esteem.

GREAT DANCE HALL IS BEGUN.

Ocean Park to Have the Finest Building of the Kind on Pacific Coast.

OCEAN PARK, Feb. 24.—Work has been started on the new dance hall on Fraser's new pier. The plan is for the finest building of its kind on the coast.

The dancing floor is to be of fine white maple. This flooring will be laid so that the dancers will travel all the time with the grain of the wood, making it unnecessary to ever dance against joints or rough side grains.

The lighting scheme is one of the unique features. Four colors of lights will be used to illuminate the interior. This feature is controlled by special mechanical equipment which will permit one color for a few minutes and then gradually blend into another color and so on through the evening. The machine works automatically. The outside of the building will be illuminated with over 40,000 series small voltage Tungsten lamps.

The orchestra will be suspended from the dome and will be over the heads of the dancers in the middle of the building. An orchestra of picked musicians will be maintained, and next winter the dancing pavilion will be open every evening.

Alvah W. Layne, manager of the pier, has the most direct interest in the building, and Otis Carrillo and Al Reinhold have the check room privilege.

Long Beach.

PORTERFIELD
LOSES EQUITY.

PLANS TO SAVE WESTMINSTER PROPERTY FALL THROUGH.

Porterfield in Discussing Matter Says That Jealousy and Childish Bickering Cause the Various Saving Plans to Go Awry—Three Thousand South Dakotans Picnic.

Long Beach.

LONG BEACH, Feb. 24.—So far as his agents and those directly interested are concerned W. L. Porterfield has lost his opportunity to retain possession of the valuable Westminster property on the beach west of the pier, which now becomes the property by deed of the Pier Realty Company, composed of H. S. McKee, and J. R. Washburn of the Bank of California and other Los Angeles associates. Messrs. Hughes and Betts, who for the past week have been trying to save the property to Porterfield, said today that all negotiations were off and the attempt to redeem was a failure. It was rumored that another plan was being formulated by Mr. Porterfield which looked good, but his agents say there is nothing to it. It looked at one time yesterday as if the required money was in sight, but at the last moment after papers had been signed a misunderstanding arose and the matter of the interested parties threw up their hands.

Mr. Porterfield says that the misunderstanding was a matter of "misinformation" and that he was not to be held responsible for the failure. He was heard to say that he was not to be held responsible for the failure. He was heard to say that he was not to be held responsible for the failure. He was heard to say that he was not to be held responsible for the failure.

Agent Betts says the proposed plan was for local men to raise the \$102,000 necessary for redemption and loan the money to Porterfield, who would redeem it by transferring the mortgage. When this failed he made a proposition, offered by Porterfield, to pay the property outright for \$150,000 but this also fell through.

DAKOTA PICNIC.

All preparations were completed today for the taking care of 3000 South Dakotans tomorrow. The weather will prevent the most successful gathering the society ever held. Basket dinners will be served under the big tent, and the program of speeches and music will be carried out. Mayor Windham will deliver an address of welcome and will be followed by the members of the State, all of them now residents of Southern California. Music by a quartette will be one of the pleasant features of the program.

SOCIAL FAVORITE DIES.

Society and business interests were shocked this morning over the sudden death of Mrs. Jeannie A. Reeve, a pioneer of the city, and for nineteen years a resident of Long Beach. She was a social and business life of Long Beach. Three weeks ago she met with an accident in Los Angeles while boarding a car. She was thrown from the car and was seriously injured. She was taken to the hospital and died after a short illness.

Reeve was a native of Poughkeepsie, N. Y., and 72 years of age. She visited California in 1885 and again in 1893 when she lived on her own property, a beautiful home at Third and Cedar streets, which she filled with curios and bric-a-brac. She had planned another old world trip for next year. Mrs. Reeve has always been closely allied with the civic, social, business and philanthropic progress of Long Beach, and combined strong character with a gentleness and refinement that endeared her to every one who knew her. She was one of the organizers and directors of the First National and City Savings Banks. She was also a member of the First National and City Savings Banks. She was also a member of the First National and City Savings Banks.

ATTEMPTED BURGLARY.

An attempt to burglarize the home of R. M. Baker on Bascom avenue last night was frustrated by the cries of Mrs. Baker and Miss Cook. The women became alarmed just as the marauders reached the second floor. Mrs. Baker was at the foot of the stairs when the two thieves ran down and pluckily seized one, but was unable to hold him. In the imperfect light, she was unable to get a good look at her temporary captive. The men barely escaped Nightwatchman Quigley, who reached the house but a moment after their hurried departure.

WORKING FAKE MEDALS.

W. L. Cunningham, the ex-convict who is reported to have killed \$1000 in worthless checks in Sacramento, and skipped, is well known here where he was a life guard three years ago, was a braggart and wore fake medals, telling of swimming championships, and Carnegie medals. He was arrested for the surf led to an investigation which revealed a clever scheme of fakes with the aid of a number of accomplices.

NEW SYSTEM.

City Engineer Dewey tonight submitted to the Council his plans and estimates for a new sewer system which will include all of the present city sewerage system. The new system will cover about seven square miles of territory and will accommodate a population of 150,000. Its estimated cost will be \$345,412. It is divided into eight districts. The plans also include a new outfall sewer emptying into the inner harbor and a new septic tank. The existing system was put in

in 1903 and covered only a small part of the city and is now entirely inadequate even for the territory it takes care of. Owing to the topography of the city, the fall of the intersecting sewers presents many difficulties which the engineer thinks he has fully overcome.

PRESENCE OF MIND.

The quick wit of Henry Anderson yesterday saved a party of four from injury in a collision with a south-bound flyer on the Huntington Beach line at Zafaria. Anderson's car stopped on the crossing just as a car came along, and seeing he could not get over in time Anderson coolly turned his machine onto the right-of-way and started away down the road bumping over the ties, but giving the motorist a chance to slow down so that the car merely bumped the machine when it struck, causing only slight injury to the auto. The women occupants jumped into the ditch and escaped. Anderson and his friend remained in the car and only got a shaking up.

George Chase of this city says he was the longest resident of Iowa at the Hawkeye picnic Wednesday, and not a Los Angeles court officer. Chase says he went to West Liberty, Iowa, in 1847 and remained there until last August, when he removed to Long Beach, antedating the Los Angeles man by four years. Mr. Chase is 81 years of age and is a hearty and hearty man. He is living at No. 214 West Twenty-first street, Los Angeles, came to the beach yesterday for an outing, and before he left home placed \$170 in gold in his trousers pocket which he fastened with a safety pin. Starting for home in the evening he discovered his money was gone, and notified the police. As his pocket was still closed the police suggested that Odell had probably dropped his money before he left home.

For the first time in many years, Mrs. Mary E. Barker, lecturer and author of "Cordova," is back in Long Beach, which she last saw as a hamlet of which her husband was first postmaster. She has been absent twenty years and was unable to recognize any old landmarks in the now prosperous city.

E. L. Wingard today purchased from J. L. Jones the half interest in the northwest corner of Ocean and Cedar avenues, for \$21,000, and is now sole owner of one of the few choice vacant properties left on the front. The property consists of a plot measuring one 26x75 feet, the other 100x150 feet.

Monrovia.

PSYCHOLOGICAL
MOMENT CHOSEN.

BOARD OF EDUCATION HOLDS
ANOTHER GINGERY SESSION.

Monrovia.

Dr. Allison of the Board of Education Assures Dr. Pomeroy of the "Advisory Board" That His Finger Is Not Loaded and Calm Successes the Storm.

Monrovia.

MONROVIA, Feb. 24.—A laugh at the psychological moment last night calmed the storm of disension raging at the joint session of the Board of Education and the Advisory Committee and resulted in an agreement to submit the choice of an East Side grammar school site to a straw vote of adults in the election will be held in the Ivy-avenue school, Saturday, March 4. Polls will be open from 8 o'clock a. m. to 6 p. m.

The meeting was called for the specific purpose of discussing with architect Allison the interior arrangement of the proposed building as an "open air" school. The scheduled business program was immediately lost to view in charges of "discourtesy and arbitrariness" in deciding upon a school site in the grammar school district. The election will be held in the Ivy-avenue school, Saturday, March 4. Polls will be open from 8 o'clock a. m. to 6 p. m.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.
Dr. Powers, city health officer, yesterday asked the Council Finance Committee for an additional appropriation to provide for milk inspection outside of Los Angeles county. He said a large amount of milk from unlicensed dairies is shipped into the city.
The attorney in the Baldwin case will hold a conference Monday, to arrange for the arguments to the jury to follow Tuesday morning. Three days will be devoted to the arguments.
Judge Hutton yesterday delivered an important opinion on the question involving the riparian and appropriation rights of water, and the supply in the Garden Gulch Canyon, Antelope Valley.

At the City Hall.
FIGHTING FOR BETTER MILK.
ONLY A PART OF CITY SUPPLY IS NOW INSPECTED.

Health Officer Asks More Funds to Carry On Milk Inspecting Outside of City and Get Relief From Finance Committee Chairman, Who Thinks State Should Help.

City Health Officer Powers told members of the Council Finance Committee yesterday that milk inspection in Los Angeles is proving a doubtful success because the health department is unable to send inspectors to San Luis Obispo county, the San Joaquin Valley and Imperial Valley. As a result, he says, the inspected dairies in Los Angeles county are being closed up and the business is being transferred to more distant points where the profits are greater because inspection makes no demands.

Dr. Powers wanted a sufficient appropriation to pay the expenses of an inspector in this outside territory. The result, he said, would be to stop the shipment of fresh milk to Los Angeles because the dairies there would ship to their creameries rather than comply with the Los Angeles requirements.

Chairman George Stewart of the Finance Committee was reluctant to admit the necessity of such an appropriation. He thought if the milk were tested after it arrived in Los Angeles that would safeguard its sanitary condition and quality.

"You are entirely mistaken, doctor," said Dr. Powers. "Please don't call me doctor again," protested Stewart. "The health officer is a man of business."

Mr. Powers apologized, but continued his argument that no one could tell from bacteriological tests whether or not milk is clean and whether the dairies are properly conducted.

"It has been called to our attention," he said, "that some of the old tubercular cows have been shipped out of town and are being used as milk producers. It is absolutely unfair to the local dairymen to inspect their dairies and not then to allow the expense necessary to comply with our regulations and let the outside men ship in their milk to compete with it here. It is a policy that will drive the dairy business away from Los Angeles. The committee did not decide the matter, but took it under advisement."

Meyer Lissner and the Public Utilities Commission also had their troubles with the Finance Committee. Lissner had told the committee that he must have \$10,000 right away with which to carry on the work and set up proper offices. The Finance Committee was not disposed to be liberal even with Lissner and cut him down to \$6,000. After some protest the half was accepted as better than no bread at all, which is what most applicants for expense money get from the present Finance Committee.

CITY-HALL EXCHANGE.
IMPROVEMENT IN PHONES.
A new telephone exchange including all of the city departments is planned for the City Hall. The city now uses about 125 separate telephones and each one of them is on a separate trunk line with a different number. Under the new system there will be a general City Hall switchboard with operators connecting all departments.

The city is given eighty free telephones by the two companies. Even with this contribution the city is spending enough money to pay operators and save on its trunk line rentals by having a switchboard. Supply Clerk Baker, who proposed the new system, believes the municipality will save a large amount of time and money in the service of its employees.

Half the telephone calls that come in could be answered by a telephone operator without disturbing the work of the various departments.

City Hall Briefs.
The Arbor Day Association will celebrate on March 11 this year by planting trees in Exposition Park in as much as the work will go toward carrying out the city's plan of improvement there, the Council has been asked to contribute \$250 toward the expense of the celebration.

The Arroyo Seco Chamber of Commerce has presented a petition to the City Council asking that the Carnegie branch libraries be located in Highland Park.

BALDWIN CASE NEARING CLOSE.

At the Courthouse.

ARRAY OF LEGAL TALENT READY FOR THE ARGUMENT.

Arrangements to be made Monday as to the manner in which the opposing counsel will occupy the time—probably go to jury Friday After Trial Lasting for Weeks.

The closing scenes in the suit brought by Beatrice Anita (Baldwin) Turnbull, to have herself declared a legal heir to the "Lucky" Baldwin millions, will be completed next Monday, the day before the arguments begin in Judge Rives' court.

There will be separate conferences of the attorneys representing Miss Turnbull and the heirs of the dead horseman, in relation to the marshaling of the testimony. They will determine the attorneys who will address the jury in behalf of their clients.

On the part of the Baldwin heirs, the attorneys taking part in the conference will be Gavin McNab and Garrett McEnroe of San Francisco; Bradner W. Lee, Henry T. Gage, W. L. Foley and Hull McGaughey. The attorneys representing Miss Turnbull will also hold an all-day conference among themselves on the points mentioned by the court.

On Tuesday morning, previous to the convening of the court, there will be a general conference largely of the attorneys in the case, when the order of the speaking will be arranged. It is understood that on the part of the contestants the speakers will be Grant, Dockweiler and Hutton; on the part of the defense McNab, McEnroe, Gage and, perhaps, Lee.

Three days will be devoted to addressing the jury, the charge of the court to follow Friday morning. The records in the Baldwin case are the most voluminous of any litigation in the recent history of Southern California. There are more than 3,000 pages of transcript of the evidence.

GUARDIAN APPOINTED.
PURCELL WILL DEVISEES.

In Judge Rives' court yesterday, Leo Mayer was appointed guardian ad litem of his two children, Mary D. and William P. Mayer, who are devisees under the will of Mary Purcell. The wife of Mayer, who cared for Mrs. Purcell in her last sickness, is a beneficiary to the extent of \$15,000.

The action is taken in due course of pleading on a citation to show why the probate of the will of Mary Purcell should not be revoked. The testator left an estate valued at \$100,000, of which she was the sole beneficiary. A large share went to charitable institutions, and relatives not of the blood.

There is a contest pending to revoke the probate of the will. Under the instrument, Charles Purcell, a brother-in-law now residing in Chicago, is made the principal beneficiary. It is alleged in the contest that he used undue influence.

WATER RIGHTS.
IMPORTANT RULING.
In the action brought by Walter Collins against Bertram Gookins, involving the right to use the waters of a 10-inch stream in Garden Gulch Canyon, Antelope Valley, the court has made an important ruling.

Judge Hutton in the decision handed down yesterday, said there was a difference between the rights of private appropriation and the rights of riparian owners to the waters of California streams.

In the case at bar, both parties came into court relying upon the superior appropriation of the waters of the Garden Gulch Creek.

The court says: "The water in controversy is not subject to private appropriation; the only waters subject to private appropriation are the waters of streams on government land before the rights of settlers of the stream, who by reason of their settlement became riparian proprietors, have accrued."

"The system of riparian rights is in full effect in California; that is to say, the riparian owners are entitled to other classes of appropriators have a right to the full flood of the stream, undiminished in quantity and quality and unaffected in quality, except that each riparian owner properly may deliver so much of the stream upon his riparian or bank land for irrigation purposes as he can put to an economical and beneficial use."

When the water reaches Gookins' land he also may use the entire flow if he can put it to good use. The court grants the request to amend the pleadings. After such amendment, Gookins may be prevented from taking water away from the land where it will flow back into the underground supply of the Garden Gulch watershed.

CHURCH IS FIRST.
WIFE DESERTS MATE.

Willard H. Duval was granted an interlocutory decree of divorce from Juanita, his wife, yesterday, by Judge Conroy. They were married in 1907. His wife left home February 22, 1930. She told him that she did not love him, and that in her opinion the hearing of children would interfere with her church work. She cared more for her mother than for him the evidence showed.

GETS CLOTHES.
THEN DESERTS HIM.

Judge Conroy yesterday granted a decree of divorce to Francis Donegan from Ora L. Donegan, on the ground of desertion. The case was partly heard a week ago. In the meantime efforts were made to locate the defendant, but without avail.

Young Donegan is the son of a well-known contractor of this city. The plaintiff made a trip from Mexico for the express purpose of securing a legal separation from his wife.

The evidence showed that Mrs. Donegan deserted her husband soon after their marriage. Later she returned, it being stipulated that her husband should receive four years of wages and dress and feminine finery. The suit was purchased and paid for by Donegan. No soon was it made up into gowns than she left him again.

CRIMINAL MATTERS. In Judge Willis' court yesterday Ferman Fawcette, convicted of perjury, was granted five years probation.

J. Randolph, who pleaded guilty to making an assault with a deadly weapon, was sentenced to ninety days in the County Jail.

J. S. Gerdall, charged with making an assault with a deadly weapon, pleaded not guilty, and his hearing was fixed for March 13.

An information was filed against Joseph N. Smith, charging him with embezzlement. He will be arraigned Friday next.

PLEADS GUILTY. In Judge McCormick's court yesterday, Raymond Ryalls pleaded guilty to an information charging him with perjury. He will be up for sentence Tuesday next.

CONCLUDED NEXT WEEK. The arguments were concluded yesterday in Judge Wood's court. It is the contention of George M. Jones against Abbot Kinney. The attorneys who addressed the jury yesterday were John D. Pope and R. C. Gartner, for defendant, and Earl Rogers closed the case for the plaintiff. The jury will be charged by Judge Wood Tuesday morning.

TO MORTGAGE. A petition was filed in the Superior Court yesterday by the Boys and Girls Society, to mortgage its property on Mission street, for \$8,000.

WOULD DISSOLVE. Goepfinger & McMillan Co. yesterday petitioned the court to dissolve the corporation. The debts of the company have been paid and all of the stockholders have united in the petition.

SUIT FOR MAINTENANCE. An action was brought yesterday by Laura J. Fullerton, who is the wife of Asbury B. Fullerton, to compel him to provide for the care and comfort of herself and children. They were married in Bolivar, Mo., in 1929.

SUIT AGAINST THE CITY. An action was brought against the City of Los Angeles yesterday in the Superior Court, by Frank P. Sherman, as assignee. It is alleged that the city made a contract with W. F. Thompson, an architect, by the terms of which Thompson was to make plans for a new engine house to cost \$39,000. The work was completed and the fee was \$18,000, which the defendant has refused to pay. The claim was afterward assigned by Thompson to the plaintiff.

AGAINST ONE DEFENDANT. The jury in the action brought by Etta D. Turner against the Los Angeles Railway Company yesterday returned a verdict of \$25,150 against the defendant to recover for an accident occurring at the corner of Seventh and Valencia streets, in May, 1928, returned in court in Department Three, yesterday with a verdict of \$30,000 against Haskell. It was shown by the testimony that the plaintiff was coming from a car at the point named, when she was struck by an auto owned and operated by Haskell. The jury found that Haskell was at fault.

INCORPORATIONS. Articles of incorporation were filed yesterday by Realty Company, capital stock, \$100,000, incorporators, Jacob Stern, Joseph Goodman and Gustave Stern, subscribers, \$100,000. Realty Company, capital stock, \$20,000, incorporators, J. H. W. H. and O. V. Crawford, subscribers, \$20,000. Realty Company, capital stock, \$10,000, incorporators, R. H. and Isidore Rafael and Mark Turnbull, subscribers, \$10,000. Realty Company, capital stock, \$10,000, incorporators, Z. A. Towne, J. E. Lange, Fred Lenz, J. E. Traubner, J. A. Schuler, E. W. Woolsey and Peebles Schoaff, subscribers, \$10,000.

BREACH OF PROMISE. Alma Olsen, who says she is an unmarried woman, filed a complaint in the Superior Court yesterday, against Sven T. Wallin, asking for a judgment against him for \$5,000. It being alleged that on September 15, last, the defendant promised to marry her, and has failed to make good his agreement, although she has been ready and willing at any time. She also averred that he has refused to make her his wife.

IN THE INFERIOR COURTS.

Negro Feels Aggrieved Because Bail Money Is Forfeited and Makes Appeal to the Police Judge.

Charged with visiting a lottery, Frank Taylor, a negro, had a unique story to tell in Judge Chambers' court yesterday, when he appeared for trial.

The negro was arrested, in company with two others, who pleaded guilty and were fined, one of them being the proprietor of the resort. Taylor's case was set for trial yesterday, but as he did not appear his bond was declared forfeited.

"Judge, you all have got \$20 of mah money," Taylor said. "I want to give it to you. Judge Chambers' desk yesterday. 'I wish you all would give me mah money back.'"

Taylor's case was set for last Tuesday, Judge Chambers told him. "Why weren't you in court then?"

"Judge, every time I started to come down here, some nigger stopped me, and told me I didn't have to come to court that day, and I didn't come. I come down Wednesday and some white man told me Judge Chambers wasn't holdin' no court that day, and Thursday I started down here, and when I got to the corner another nigger told me not to come. Seems like for 'society against me, judge. I wasn't playin' no lottery, nohow."

"What were you doing in that gambling joint?"

"That's where I eat, judge. I owe that man money for meals now. I went in to get my dinner, and when I come out, I was lookin' right square into two big guns. Tain't right to shove them firearms into a poor innocent nigger's face when he ain't doing no gambling."

"You're right to give mah money?"

"I'll be ready to hear your case next Friday morning when I will probably fine you for gambling, if I don't send you."

"Yassah, yassah," bowed the negro, making a hurried exit from the courtroom.

TWO JUDGES.
DOUBLE SENTENCE.
It took two police judges to attend to M. B. Chesbro yesterday, when the prisoner was taken before Judge Frederickson on a charge of stealing a ride in an auto. Chesbro was given ten days' sentence. He was returning to the prisoner's dock when the bailiff told him Judge Chambers wanted to see him.

"What does this mean?" the prisoner asked. "I have already been sentenced."

the tires off that auto. Are you guilty?"

"Yes, your honor."

"How much did Judge Frederickson give you?"

"Ten days."

"Well, your coming into this court means 120 days more."

Goes Too Fast.

H. L. Weaver, arrested Thursday by Officers Gardner and Hickok on a charge of violating the speed ordinance, while driving his auto through the Third-street tunnel, was fined \$5 in Police Judge Chambers' court yesterday morning.

Jail Sentence.

Charged with stealing a blanket from an old man in a saloon, William Loy pleaded guilty and was given sixty days in Police Judge Chambers' court yesterday. Loy saw the old man lay a bundle down on the bar when he seized it and ran. He was arrested a few minutes later.

Violates Ordinance.

Because he stood his wagon within twenty feet of a fire plug, which is a violation of a city ordinance, J. Rhodes was fined \$1 in Police Judge Rhodes' court yesterday morning. Rhodes was arrested by Officer Wyman.

Speeder Fined.

A. Rode, who was arrested on West Pico street, Thursday, charged with violating the speed limit on his motorcycle, was fined \$25 in Police Judge Rhodes' court yesterday morning. Rode pleaded not guilty to the charge.

Given "Treatment."

James Swartz and Frank Marshall, two young men charged with opium in Chinatown, were given ten days each in Police Judge Chambers' court yesterday afternoon. They were charged with the opium in their possession.

For Taking Wheel.

Clarence Mathews and G. M. Rhodes were given sixty days each in Police Judge Chambers' court yesterday afternoon on a charge of stealing a bicycle.

Inducement.

RATES TO LAND SHOW GIVEN OUT.
FORTY DOLLARS ROUND TRIP FROM UTAH POINTS.

The Salt Lake Railroad has announced a round trip rate of \$40 from Utah points to Los Angeles for the Pacific Land and Products Exposition, which will be held in this city March 12 to April 2. Douglas White, industrial commissioner of the road, who is in Utah in the interest of the exposition, is arranging for excursion parties with every assurance that the attendance will be large. Upon his return to this city he will arrange for a Utah day with the exposition officials.

The Los Angeles Silk Industry is to be exploited at the Exposition—Pomo County Nurseries to Enter Splendid Display—Notable Conference to Be Held Today.

The Fancher Creek nurseries of Fresno will be represented by an elaborate display of its products, George A. Roeding, president and general manager of the operating company, called at the exposition offices yesterday and closed a contract for space at the land show.

The Fancher Creek nurseries of Fresno will be represented by an elaborate display of its products, George A. Roeding, president and general manager of the operating company, called at the exposition offices yesterday and closed a contract for space at the land show.

OLD WOMAN A SUICIDE.
While in a dependent mood yesterday afternoon, Mrs. Margaret Elizabeth Bailey, 68 years old, drank a small vial of carbolic acid at the home of her daughter, Mrs. C. C. Sutton, No. 1504 1/2 South San Pedro avenue, and died a few moments later. The body was removed to the Brees Brothers undertaking parlor.

BEHOLD AT THE HOTEL ALEXANDRIA. This afternoon at 2 o'clock, will be attended by the leading land products representatives of the State. An attendance of fifty is expected by the Executive Committee, which issued the call and sent out the invitations. Many plans for the proper presentation of the land resources of the State will be broached and from them a definite line of action will be evolved. It is the purpose of the Executive Committee to make the display the most attractive and instructive ever assembled for an exhibit.

TESTING PHONE ORDINANCE.

Pacific Telephone Company's Suit Soon to Come Up—Rebates to Patrons If Measure Is Valid.

The suit of the Pacific Telephone and Telegraph Company to restrain the city from restricting its rates, according to an ordinance passed last May, on the ground that the enactment is unconstitutional, will probably be heard shortly in the United States Circuit Court.

Lynn Helm has been appointed special master to take the evidence which will be read to the judge when the case is called for hearing.

Meantime, the users of telephones are paying the old rates. The company is allowed to make this charge by virtue of an order of Judge Wellborn which temporarily restrains the force of the ordinance.

If the ordinance is finally proved to be valid, however, the patrons of the company will get rebates. This was one of the provisions of the judge's ruling, which ordered that the excess which is collected above the rate fixed by ordinance, must be given into the care of the clerk of the United States Circuit Court. This is placed in the bank at interest, and will remain there until the suit is finally disposed of.

To date the company has collected an excess of \$118,642.58. It turned over to the clerk \$30,000.30 in January, and so far this month has paid in \$5,046.58.

The company brought the suit on the ground that the ordinance is confiscatory and conflicts with the Federal Constitution in that it takes away property without due process. The city alleges that the rate has not been lowered so much that the corporation cannot make a fair profit.

THEIR BUSY DAYS AHEAD.

County Assessor Arranging to Put One Hundred Deputies in Field, Collector Preparing to Receive Taxes.

In a few days County Assessor Hopkins' "busy day" card will be hanging out. He will begin work March 6, and more than 100 deputies will be in the field.

Next month will also be a busy one for County Treasurer Welch, as many persons call at the Assessor's office to list their property and make it a point to stop at the collector's windows and liquidate the rest of last year's taxes.

Out of a levy of nearly \$3,000,000, about \$2,000,000 remains uncollected. An average of \$5000 a day is now received by the collector.

SMALL BOYS' LOUD HOWL.

Injury to Big Toe Was Cause of Ambulance and Three Policemen Going to His Aid.

A hurry-up call for the ambulance was sent to police headquarters yesterday afternoon from North Main and Market streets. A man was reported dangerously wounded. Three policemen were sent with the ambulance. They found a crowd around a small boy lying on the sidewalk who was groaning in agony.

"My name is Rosalind Campare," the lad told the officers. "If I die, tell my papa and mama; they live at No. 435 South Avenue 29."

The lad was landed at the Receiving Hospital in record time, and the extent of his injuries proved to be a small bruise on his right big toe. Rosalind, who is a new baby, was crossing the street when K. Bradley, riding a bicycle, ran over his foot.

Busch's "Twice A Year Sale"

This "Twice A Year Sale" is not made up of goods that I found at a bargain, because someone had undesirable goods to sell; they are spick-span-new goods bought for this season's selling. The merchandise is the most desirable and the quality has the Busch reputation back of it; this will be seen at a glance when the goods are before you.

WHY?
 We are expecting every minute to hear that William Jennings Bryan claims to be the originator of all of the propositions that President Taft is trying to push through Congress. Is William Jennings asleep at the switch? Why this stillness?

NEEDED INSTRUCTION.
 It may be the view of a layman, but the California college that would add a course of study, "The Art of Dining," to its curriculum would make a distinct hit. Think it over. Don't fail to take a look at yourself at the table, too!

A RARE ARTICLE.
 The Mayor of St. Paul is advertising for a disinterested man to fill the office of City Tax Assessor. The Mayor has come to a mighty poor world in search of a rare article. Moses secured his job as a leader of Israel purely on the grounds of disinterestedness. He was absolutely without a personal motive and, in the absence of personal will, he had a chance to know and do the will of God. There have been so few duplicates of Moses in late years that we have small hope for the St. Paul Mayor.

THE WISE ONES.
 It is an odd thing that people who fast for illumination believe they enjoy it and emerge from a foodless state of forty days without apparent injury, while the tramp who falls to secure food for a period of a few days often starves to death. Between the gluttons who commit a slow sort of suicide and the fasters who starve, the wise men who refuse to supply their bodies with the nourishment they need, life has a hard time evolving a race with sense enough to eat what it actually needs and to let it go at that.

ANY MAN'S UTOPIA.
 Countries may be lost and won at the cost of bloodshed and new parties may triumph over old, but no system can ever be evolved whereby the characterless may be supplied with character and the brainless furnished with intelligence. The best that society can ever do is to afford an environment which will make it easier for the ambitious man to succeed and harder for the worthless one to exist. When society makes it easy for a good man to be good and hard for a bad man to be bad it has done all it can for the individual. Every man takes his own measure and his conduct advises what that measure is. The will to work and the intelligence to apply that will with effect belong to the individual. The best society in the world can only give him a chance to develop the thing that is in him.

THE STREAM AND THE FOUNTAIN.
 The Evening Revolver does not "despair of the republic" or lose its faith in the beauty and efficacy of the initiative merely because the voters of San Diego turned over the use of the city streets for fifty years to a tramway corporation. The Revolver finds ample consolation in the reflection that voters who are corrupt wretches would vote for legislators of equally vicious impulses, and that it is better to take off for domestic use directly from the gutter, instead of taking it second-hand from the garbage men who collect it from the gutter. The Revolver expresses the opinion that there will be instances where the fountain will be purer than the stream which flows from it, but it will not concede the correlative proposition that the stream may clear itself by its flowing and in time be purer than the fountain.

The Times does not believe either in the integrity and intelligence of all voters, or in the dishonesty and stupidity of all legislators. It believes that, as a rule, the man selected by the voters to serve in the legislature represent a higher average of honesty and ability than the average of their constituents. Men who cannot read and write, and unconvicted criminals, and idlers and drunks and industrial workers of the world are voters, yet it does not appear that any man who could sign a receipt for his salary, or any professional thief or any industrial worker who has ever worked his way into the State Senate or Assembly.

AN EMBRYO CITY.
 Los Angeles never does anything by halves, unless it be by half millions. Her people are quick to see and swift to seize available business opportunities, and they have the courage of their convictions, and they have the courage to back up their courage. A striking instance of this was given on Wednesday last, when 2000 people flocked to the townsite of Van Nuys in the San Fernando Valley and paid an average of \$200 each for 200 lots in the proposed young city. The projectors of this new center of population purchased the valley about three months ago. Its agricultural capabilities for raising grain and fruit had been made available for fifty years, but at \$7,000 acres were lying by and a few hundred people, the capitalists who bought the ranches instead of pursuing the usual course of selling and acreage gradually, and allowing public improvements to follow settlement, concluded to make the improvements first and sell the lands and lots for settlement afterward. They appreciated the fact that with the newcomer and the old-timer in making real estate purchases would have greater confidence in the evidence of things than in "the substance of things hoped for." So they put their hands in their pockets and invested half a million dollars in ditches and other public improvements and they started the construction of an electric tramway and the building of stores,

FIGHTING AND FUEL.
 Until Thursday there has not been a first-class battle on the floor of the House of Representatives at Washington since 1859, when Barksdale of Mississippi was saved from being scalped by Potter of Wisconsin, because the wig of the Mississippi came off when the gent from Milwaukee "tangled his hand in your hair, my pet." For this assault on Barksdale's wig Potter was challenged by Roger A. Pryor of Virginia, who accepted and chose bowie knives. This closed the incident, for Pryor declined to combat with such ungentlemanly weapons.

But to return to the battle of Thursday last. Mr. Wickersham of Alaska (whether related to the Attorney-General or not the wires do not state) was making a speech on a bill for leasing coal lands in that frigid Territory, when Mr. Mondell of Wyoming, who was seated at a nearby desk, pleasantly and quietly remarked that Wickersham was a liar. Thereupon, the representative of the grim and grisly North sprang upon the member from Wyoming and smote him or smote at him twice. The surrounding members parted the would-be combatants, and the incident ended with mutual apologies, and the bill to lease the coal lands was defeated by a vote of 151 to 32.

The application of the Pinchotic doctrine of conservation, reservation and leasing of coal lands in Alaska seems to be surrounded with difficulties. Engineers agree that there are vast deposits of both bituminous and anthracite coal in Alaska of a superior quality, yet the householders of Alaska import \$1,000,000 worth of coal every year from British Columbia. On the Yukon River the steamers use wood, although there is abundance of bituminous coal at the river's edge. The railroad through the Tanana Valley is run with wood costing \$15 a cord, although part of the roadbed is laid over a bituminous coalfield, but to quote Rex Beach—"If a fireman picked up a lump of the outcrop to throw at a hen, there would be a riot that could be heard in Patagonia."

Pinchotic conservation compels the residents of Fairbanks to pay from \$25 to \$30 a ton for British Columbia coal of an inferior grade, when, if they were permitted to burn their own coal, they could obtain it with railroad facilities for \$5 a ton.

Alaska has the only coal on the Pacific Coast that is considered available for naval use, and yet the fuel burned in the Pacific ships is hauled from Pennsylvania and West Virginia to the Atlantic seaboard and thence shipped around Cape Horn.

All coal lands in Alaska are now withdrawn from entry, and even in those cases where applications were made for patent before the issuance of withdrawal orders, the government will neither issue the patent nor allow the locator to work the coal deposit, nor give him back the money he paid into the Land Office.

Conservation of coal for future generations has checked the development of Alaska industrially and compels some poor people to shiver. There is a gleam of hope for them in the fact that California fuel oil is now delivered at the Treadwell mine near Skagway at a cost equivalent to \$2.80 a ton for coal. But if conservation extends to withdrawing oilfields from location, even this relief will be denied the Alaskans.

RECIPROCITY AND TARIFF REVISION.
 There remain now but six working days before the life of the present Congress will terminate. President Taft has told Senators that unless the reciprocity bill shall come to a vote before March 4 he will call an extraordinary session of Congress. There are enough Senators determined to defeat the proposed treaty with Canada who will occupy the time with debate, so as to prevent ratification, and an extra session now seems certain.

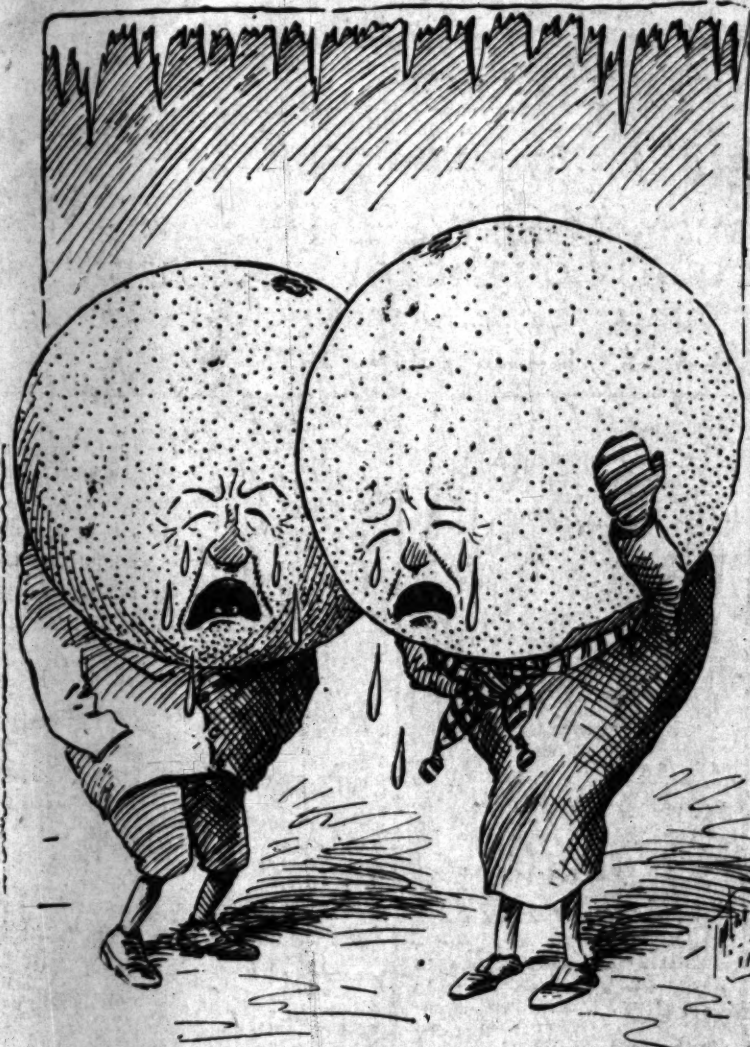

At such extra session a general revision of the tariff will be initiated by the Democrats. Champ Clark in the House will favor a schedule by schedule revision, while Joe Bailey in the Senate will demand a general revision on a "revenue only" basis. As the Democrats in the present House have held a caucus and endorsed reciprocity, and as the Democrats in the Senate have been re-elected in number as a result of the elections this winter, it is possible that at the extra session a ratification of reciprocity will precede the attempt at general revision of the tariff.

If such general revision shall be had, it will be a revision by schedules; for the Republicans who will still hold power in the Senate, although by a reduced majority, will never agree to a tariff for revenue only.

If there shall be an extra session of Congress it will probably extend far into the summer, and its effect upon the fortunes of both political parties cannot be even intelligently conjectured. If the Senate should be brought to agree to a sweeping change from a protective to a revenue tariff, and the House should concur in such a policy, and President Taft should sign the bill, while it would inflict great and immediate disaster upon the country, yet it might be better for the people in the long run than the tariff tinkering proposed by Champ Clark. Business can adjust itself to a state of adversity, but not to a condition of constant uncertainty such as would result from a schedule by schedule revision.

A tariff which was revised a schedule at a time would be a bargainable tariff, a vote-traded tariff. The New England representative would vote to retain the duty on Mexican and Argentine wool provided the Northwestern Representative would vote to retain the duty on carpets and woolen cloth and underwear.

In Florida.

trear government organs calling upon Sir Wilfrid Laurier to change his position and "save Canada" before it was too late. The government organs have printed this appeal with the statement that it is a paid advertisement, but refuse to state who paid for it. The Montreal Star indorses the statement of its Washington correspondent who avers that if the reciprocity agreement shall be submitted to a Canadian referendum \$1,000,000 would be sent to bribe the Canadian voters. It is not stated who will furnish the bribe money or on which side it will be used.

Mr. Bryce, the British Ambassador at Washington, declares that he has no instructions from his government either to favor the treaty or oppose it; that the matter rests entirely with the Dominion government, and the British government will not interfere.

Should action on the treaty be deferred until after the 4th of March, it is to be hoped that the California Senators will bear in mind that California, and especially Southern California, has everything to lose and nothing to gain by reciprocity with Canada, for the doctrine of reciprocity would extend in its operations southward as well as northward. Already suggestions have emanated from the City of Mexico to effect a treaty of reciprocity with our sister republic would result in citrus fruit, nuts and dried fruits raised on the cheap lands and with the cheap labor of the northern Mexican States being imported free into the United States and the consequence would be a diminution in the price of the product of California orchards and vineyards.

TRIBUTATIONS OF A POPLIST.
 Tom Watson, the Georgia Populist leader, seems to be out of luck. He went into a swamp near his home in Thomson, Georgia.

Whether he went there to compose a speech in favor of the initiative, the referendum and the recall, or in search of snipe, is not stated—probably the latter, since he carried a gun. While meditating and muttering to himself on the wrongs that capital has inflicted upon labor, and on the outrageous conduct of the Sheriff of Fresno county in rock-picking and hose-bathing the Industrial Workers of the World, Mr. Watson tumbled into a ditch and lost his gun and his hat.

On reaching his home he learned that three or four men had been seen lurking about his premises. He believed his life to be in danger from Georgia Democrats who did not take kindly to his populist views, and thinking that an ounce of prevention is worth a pound of cure he took prompt measures to protect himself.

Watson's speeches and writings, though they have not as yet caused his elevation to high office, have nevertheless, like those of the peerless Nebraska, "Col." Bryan, proved not unprofitable peculiarly. He has the feelings of Lazarus, but the fortune of Dives. He sympathizes in his heart with the poor, oppressed hobo, but his bank account is in six figures. He offered a reward of \$500 for the apprehension of the guilty lunkers. He called upon the Sheriff, the town marshal and the people of the town of Thomson to protect him and to make a thorough search of the woods and swamps for his enemies. He further employed twenty armed men as a guard about his home to protect him from those who he thinks are trying to kill him.

Yet there are doubters—Democrats, of course—who are so unkind as to assert that instead of a conspiracy of "Special Privileges" and "the Interests" to eliminate Mr. Watson from an unappreciative world, it is simply a case of old-fashioned Georgia Jim-jams.

The political enemies of Capt. Fredericks are having an awful time trying to find something upon which to tie the hopes of being able to explain that 2400 majority over Tommy Lee Woolwine. It may yet be necessary for Gov. Johnson to call out the troops.

Among other unpleasant features of an all-night session of Congress is the fact that Senator Heyburn is likely to cover the time with one of his most elaborate addresses.

AMERICAN BUSINESS.

BY WALTER J. BALLARD.

It is the best kind of American business that California produced 73,000,000 barrels of oil in 1910, and led all the fields of the world in oil production, thus materially aiding the United States to contribute two-thirds of the world's output.

December saw 18 more national banks authorized to begin business, with \$1,615,000. In the year 1910, 291 banks, with \$30,485,000 (over \$2,500,000 average for each of the twelve months) got permission from the Comptroller of the Currency to begin business, giving American business on December 31 the following national bank equipment:

Number of banks 7231
 Capital paid in \$1,014,591,135
 Circulation (well secured by bonds) \$693,370,056

During 1910 the South added to its cotton mill strength six new mills and five were enlarged. The total increase in capacity was 456,732 spindles and 13,089 looms. That's another step (and a big step) forward in American business.

In 1910 fiscal year express companies had a total gross income of \$123,599,190, out of which \$64,032,126 was paid for express privileges and \$59,567,064 for operating expenses. The net operating revenue was \$12,294,063. In addition, the companies had an income of \$5,335,467 from securities owned. The net corporate income for the year was \$15,582,532. The total assets of the thirteen companies amount to \$166,221,280, practically all created by American business.

The New York Sun says: "When American railroad men reflect that the Canadian Pacific Railway is not pestered by a multitude of State and Federal commissions, that it got from the government a cash subsidy of \$25,000,000 and a land grant of 25,000,000 acres, that it has a charter permitting it to run steamships on the Atlantic and the Pacific and all the lakes and rivers, to run hotels and do about everything else, these American railroad men simply can't help envying the Canadian Pacific the government under which it does business."

The Santa Fe Railway has ordered 500 steel under-frame refrigerator cars from the American Car and Foundry Company.

Compared with this time last year the port of New York is increasing its exports at the rate of from \$5,000,000 to \$6,000,000 a week. Last week the total was \$16,153,892.

During 1910 our steam railroads ordered 141,304 freight cars, against only 62,649 in 1908. Orders for passenger coaches covered 3881 coaches against 1319 in 1908. Locomotives ordered were 3757, against 3250 in 1908, and only 1182 in 1908. The 1910 ordering was above the average ordering of the previous eleven years.

Watching the crowds on the street and in the stores, banks, etc., can you see any signs of business depression in Los Angeles?

Should not American business generally get credit for the increased population of the smaller cities of California as well as for those of Los Angeles and San Francisco?

For instance: Population 1900.
 Bakersfield 12,727 4,826
 Fresno 24,892 12,470
 Eureka 11,545 7,527
 Riverside 15,212 7,973
 Santa Cruz 11,146 5,559
 San Bernardino 12,779 6,156

These increases are both striking and comforting.

Anthracite coal shipments in this December were 1,200,000 tons, or about 50,000 tons over December, 1909.

Wabash Railway car loadings in December 1910 were 215,884 cars, or 20,875 (10 1/2 per cent.) more than in December, 1909. Atchafalaya and Santa Fe car loadings in December were 8644 cars more than in December 1909 and 12,450 more than in December, 1908. Burlington increased 3000 cars. What evidence of depression in American business is there in that record (which might be multiplied) of American freight business?

Grain shipments in December, 1910, increased 15 per cent., coal shipments 24 per cent., and miscellaneous freight, 24 per cent.

The American Locomotive Company got an order from the Imperial Railway of Austria for 24 Pacific passenger locomotives and 6 Mallet compound locomotives.

The Pittsburgh and Shawmut Railroad orders 64,700 tons of American steel rails.

It is impossible to calculate the number of billions of dollars of American business that have been created by the crops of 1910 being worth on the farm nearly nine billions of dollars, or to be exact, \$9,225,000,000.

The improvement in the bond market has been one of the most encouraging features of the past few weeks, says that authority, the financial editor of the Sun of New York.

Double that is why the Pennsylvania system is putting out \$100,000,000 of new stock, in the face of a forthcoming issue of \$60,000,000 worth of New York City bonds. More evidence of good American business.

It means a great deal for American business that the total production of American oil in 1910 exceeded 300,000,000 barrels.

American business exported \$321,453,228 worth of domestic products in 1910 calendar year, made up of (Bureau of Statistics):

Cotton (increase \$69,000,000) \$530,126,515
 Meat and dairy products 107,333,257
 Breadstuffs 95,774,078
 Mineral oil 55,571,319
 Cattle, hogs and sheep 9,080,229

Total \$831,455,228
 Equal to nearly \$2,800,000 a day for each of the 300 working days of the year.

American cotton goes chiefly to Great Britain, Belgium, France, Germany, Italy, Russia, Spain, Canada, Mexico and Japan.

UNCLE WALT.

The Poet Philosopher.

One day I had to take a board and fix the roof, which let in rain: I saved my fingers off and roared until the neighbors had a pain. I tried, and tried, to drive a nail, and every time the hammer missed; I toiled for hours without avail; I broke my neck and sprained my wrist; I clawed my nails in there, till friends and neighbors stood aghast. And then a carpenter I sought; of saving boards a trade he makes; he fussed around my lovely cot, and had it fixed in forty shakes. He knew just how to wield a saw, he knew just how to drive a nail; he was a smile, and from his jaw there came no laugh. I read two lines; then, with a roar, I tied him in a sailor knot, and buried him beneath the floor of my obscure but happy cot.

LOVETT EXPLAINS POLICY.

(Continued from First Page.)

the government of its policy to protect the valley against the floods of the Colorado River.

"Unless the total bond issue should be restricted to the amount necessary to cover our claims and advances, the bonds issued for \$2,500,000 to be advanced for the improvement mentioned, and the amount we have already advanced on receiver's certificates, would have to be prior in rank and lien to all other bonds, and in any case, there would have to be some limitation as to the amount of bonds to be issued, since, of course, we could not agree to accept for our claims a series of bonds which might be indefinitely increased for unknown purposes.

"I am pleased to note that the conditions and prospects in the valley are more favorable now than ever before; and I regard the present as an appropriate time to clear the title of the property and turn it over to the people under a suitable and permanent plan for betterment of the system and its ownership and development by the who are most interested in its successful operation."

DECLARES FOR PROGRESS.

It was the late E. H. Harriman who, in the financial depression of 1907, paid \$500,000 out of his own pocket to save the Erie Railroad from a receivership, thus preventing a number of railroads from failure. The policies of Harriman have lived after him as expressed in the determination of the present management of the Harriman lines to proceed in a large way in construction in face of the race of railroad managers toward curtailment and economy. It doesn't mean, as Mr. Lovett took occasion to say, that the Southern Pacific is to enter an era of extravagance or unnecessary expenditure.

"The country needs our railroads and all of these facilities that we are going to provide," said Lovett. "We cannot make progress by any retrograde movement. If we wait until all of our difficulties are out of the way we will find our lines falling behind instead of doing their share in the development of the country traversed by them. We have kept pace with the development so far and we intend to continue doing so as long as we can, regardless of temporary disturbances of any kind. It is impossible for the railroads to stand still and it is necessary to have money to carry out the programme of improvements we have determined upon. It is necessary that the railroads be fairly treated and that they have reasonable protection, and the right to a fair return on the investment."

"I believe in the ultimate judgment of the people, and that in the end the people are going to treat railroad investments just as they treat all other investments. For years we have spent less money in Texas than we would otherwise because of unjust and unreasonable legislation. The result of this legislation restricting railroads is that Texas is short about 2,000,000 in population over what she would have had had a more reasonable course been followed.

"The decision announced yesterday in the rate case is bound to have a depressing effect and will hamper the railroads in getting money. Perhaps there may be a way to regain the confidence of capital, however."

GOING TO PORTLAND.

President Lovett and his party will spend several days in Los Angeles and will then return East by way of San Francisco, Portland and Ogden. With Lovett there were on the special train arriving at 9 o'clock last night Julius Kruttschnitt, director of maintenance and operation; J. C. Stubbs, vice-president in charge of traffic; Robert Goetz of New York; director; L. J. Spence, assistant traffic director; E. O. McCormick, vice-president; E. E. Quinn, vice-president and general manager; William Hood, chief engineer; H. V. Platt, general superintendent southern district, and E. E. Randolph, vice-president of the Arizona & Eastern.

OUTLINES PROGRAMME.

SHOW SAHARA'S SANDS.

Girls of Occidental Y.W.C.A. Give Entertainment With "Midway Plaisance" Features That Please.

The halls of the administration building of Occidental College were turned into a "midway plaisance" last night. The Y.W.C.A. of the college gave its annual benefit to help defray the expense of sending some of the members to the Y.W.C.A. conference of college women held at Capitola in the latter part of March.

The method employed this year was a novel one and proved highly successful in raising a crowd of students. The hall in the third story of the building represented the hot sands of the Sahara, and all who were willing to part with 5 cents, were permitted to ride a camel, which consisted of the gymnasium horse. A great many of the students availed themselves of this opportunity to ride upon a dromedary. The long hall on the second story had been converted into a veritable "pike." The different rooms opening onto this hall and contained some kind of a side show and each had its "barber" who stood at the door and cried out the particular excellence of the show that was going on "just inside the little tent."

In the college hall on the first floor, a vaudeville show was pulled off that was a great hit. Several little sketches were put on that made good. One of

FACTS AND FIGURES FOR WOMEN.

DAILY BEAUTY HINT: To reduce the weight and also to gain a springy salt, there is nothing better than climbing hills or stairs. You will find such exercise hard at first, but you will soon overcome this and begin to rejoice in the fact that it is easier and easier to lift yourself up these heights. This will be true both because you actually weigh less and because you have gained the poise which comes with overcoming.

Should it ever happen that I am attacked with the blues, heaven send that I meet Elsie early that day. There comes times to all of us I think, when we suspect that the world would move on without us and our work. This awful suggestion creeps up from some dark nook of the mind and we exist in a state of suspense, waiting for the first sign of a ray of hope. It is a sort of subtle salivation of brain and thought which robs life of its savor. Then it is that the merest chat with Elsie acts as an antidote. With her cheerful and sunny disposition, she seems to guess your state and somehow she has always just heard from some one something perfectly delightful about you. You feel that she does not hesitate to tell it. The thing heard is just what above all things you would wish to have had said about you—a sort of word materialization of your ideal for yourself. If, as sometimes happens, you have been thinking that your suit or your hat is beginning to look shabby, Elsie is moved to tell you once again how very becoming to you is that particular hat or suit and you really begin to think that after all no one has noticed that you have been wearing it for six months. Indeed the wild thought crosses your mind that perhaps it looks just like new. To sum it all up, after talking with this dear girl for half an hour, you go on your way fairly glowing with yourself, almost curvetting in your restored self appreciation and as happy as though some one had made you a present of the thing which you had most-coveted. I hope you know an Elsie.

German Raffle.
One of the fancy-work stores has a supply of German raffle work which is selling at half the regular price. The reason for this sale is that it is so difficult to keep on hand a full line of this goods as it takes several months to obtain it from the foreign country. The colors in the imported raffle are more delicate and of wider range in shades than in the domestic article and are also said to be "faster." The work is done upon a coarse meshed German canvas, and the patterns in table runners, pillow tops, scarfs and hand bags are quite oriental in their gorgeousness. For use at the beach, there is nothing equal to this kind of work, as the damp salt air has no effect upon it.

As to Quality.
By-the-by, I heard a story about a little girl who was being coached in her Sunday-school lessons, recently and when asked from whence come all good things, her reply was: "My mamma says all good things come from," and she named a certain Broadway firm noted for the excellence of its wares.

Old Friends in New Flavor.
One of my correspondents has sent a suggestion which at once appealed to me. The Good Housekeeper tried it that very day. In cooking turkeys, wrote the benevolent lady who wished to share her good things with us, "put them on to boil with fresh beef or fresh pork for use at the beach, cook down to a gravy and you will find that the vegetables have absorbed enough of the meat flavor to make them delicious. If you wish, you may cook with them one or two pepper pods." Let me add that the pepper pods lend a delicious piquancy to the turkey.

Suits to Burn.
But not burned and that is why you will have an opportunity to buy them so cheaply, at the sales just starting in the Broadway houses whose stocks are narrowly escaped in the recent fire. These stores are not accustomed to holding bargain sales and the opportunity to secure high class goods at reductions is one which Los Angeles women will not be slow to grasp.

"Backward! Swing Backward!"
Oh Time, in your flight! Make me a child again just for tonight! And that is what time did, at an afternoon affair on Harvard boulevard, the other day. The hostess asked each lady present to write upon a card her maiden name. Some of the maidens wrote fanciful "names de matron." "We will now open the session of the village school," said the hostess—for the time-being, the teacher. Then followed a game of geography. This was a guessing game, each being asked to name some article, word or expression, represented by the abbreviation of one of the States of the Union. For instance: "The abbreviation of what State indicates the title of an unmarried lady?" The answer is "Miss." "The abbreviations of what two States are an exclamation?" Reply, "La and O." Thus throughout the many which it is possible to thus apply.

Next came a lesson in Physiology. All questions here were to be answered by naming parts of the body. "What flower is represented in the human body?" Answer, "the iris." "What popular drink is represented in the human body with spicules to correct pronunciation?" Answer, "eye-balls." Much originality was used in both questions and answers. Last came a real old-fashioned "spelling down," beginning with the most encouraging of simple words and working up to "phibetic" and "Timbuctoo" or "Timbukto." Let me say that the one who spelled them all down was not of the modern school.

The Little Garden.
It was surprising how readily those dear ladies dropped back into the days of their little girlhood and how many funny pranks they remembered and rehearsed. When all joined in singing "School Days, School Days—Dear Old Golden Days, School Days—Dear Old Golden Days." I believe many wished that the afternoon could be made to stretch out indefinitely. I wonder why people do not oftener play at play time; why we insist upon being grown up, when it is such fun to just be children.

In Making Doughnuts.
If you have been afraid to try making doughnuts because the first batch soaked fat—the worst sort of misadventure upon this particular meeting. The board

litical Equality League permission to hold the meeting and it seemed unfair to revoke this commission when those giving the meeting would have no time to make other arrangements. The meeting will be held as advertised, but the women opposed to suffrage will ask for a ruling of the board on the question of this character in public buildings. What the position of a majority of the 1800 school teachers in Los Angeles may be as regards suffrage is entirely an unknown equation. It is safe to say that if either of the camps suggested a straw vote of the teachers the other camp would accept the challenge with reluctance. The teachers have refused to express themselves one way or the other.

BREAKS OUT IN POETRY.

Lancaster Woman Charged With Poll Tax, Objects in Verse Until She Has Right to Vote.
Representing a petticoat poll tax which was levied because mere initials do not designate sex, a Lancaster woman who signs herself "C. H. Perkins" has broken forth in verse. Her literary gems, sent to the County Tax Collector, are as follows:
"Don't be in a hurry a poll tax to get But wait 'till the privilege of voting is let
To the women, your equal in all things on earth: To the wife, to the mother who gave you birth. But after the amendment is carried, why, then, We women will pay our poll tax like you men. But while we are waiting with patience (?) perhaps, To poll tax, dear gents, you will kindly let pass."
The woman was charged with poll tax in a thing of beauty, too, the "which" is serving her purpose in freshness for the table.

A tourist party from Elgin, Ill., staying at the Lankersheim is made up of Mr. and Mrs. Alfred Bosworth, Dorothy H. Henry O., and Albert Bosworth.

The Wonderful Angelus Pianos

Every investigator of the Angelus products, the Knabe-Angelus, Emerson-Angelus and the Angelus Piano, becomes instantly an Angelus enthusiast.

No player-piano has so many distinctive features of superiority. No other player is so simple in its operation, none gives such perfect musical results.

Skill in operation, the continuous manipulation of buttons and levers is essentially necessary to obtain musical results in other players. Not so the Angelus. The touch of one finger—just the index finger of the right hand resting on the phrasing tablet—imparts unconsciously a control that is impossible in other players.

The Angelus separates melody and harmony, giving each individual melody note its proper accent and subduing the accompaniment just as in manual playing.

The Angelus players cost no more than ordinary player-pianos, yet in their musical and mechanical perfection they are years in advance.

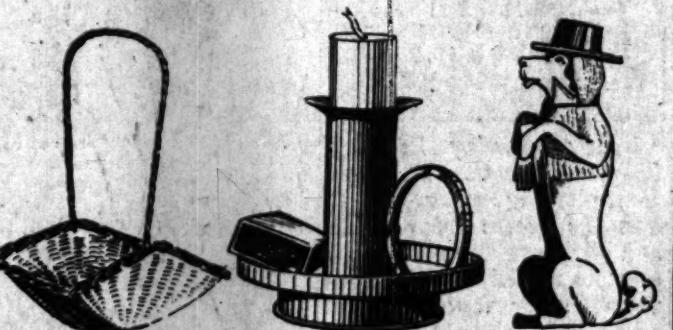

Easy payments if desired. Your old piano taken at its full value.

SATURDAY CANDY SPECIAL: 25c LB.

MORNING CLUB PAGEANT.

(Continued from First Page.)

bordering upon the sensational. When one of the most stunning women in Los Angeles, and certainly one of the most handsome and best-dressed women in the Friday Morning Club dresses as a Dutch peasant boy of twenty-two, it is enough to make a city sit up and take notice. The more than 1500 brilliant women crowded in and around the Friday Morning Clubhouse yesterday thundered their applause when Mrs. Albee essayed this role.

Mrs. Constance Britt Barmore as an Egyptian princess in the playlet, was another startling figure. In this cast a big success was scored by Mrs. Alice Eaton Carr, who, as spurious Daffi, was superbly genuine. As an artist of excellence Mrs. Nell Lockwood McCane, who was in the role of Italia, received applause second only to the hearty ovation given to Mrs. Albee. There was something shockingly delightful in the sudden discovery that a bit of animated pottery could sing as Mrs. McCane sang.

Other characters of the playlet, who were distinct hits in the parts for which they were cast, were Lucy Thomas Fiske, Margaret Daniels, Catherine Torrence, Gertrude Keller Bagley and Marie Christopher Brinker.

An old plate from the City Hall of New York, Mrs. J. A. Osgood was so charmingly picturesque that a murmur of applause followed her along the line of march. Equally appropriate was Mrs. Berthold Baruch, whose presentation of a Tehuantepec Indian woman of Mexico, was a vivid revelation to the type. In introducing the pageant, Mrs. O. P. Clark, president of the club, delivered a pleasing address.

Philomena Pemberton as cupid, Harriet Foster, as a page, and Irene Soudon as a fairy, were three dainty babies who gave the audience that delightful experience in finding mountain forget-me-nots beneath the snow.

TRAINFUL OF FARMING LORE.

Seven Coaches of Agricultural Exhibits Coming.

Esper and State University to Teach Farmers.

Portable Education Is Now Touring Southland.

For the reason that most of the farmers of the Southland are detained at home by the exigencies of business, and are not able to go to the agricultural school of the University of California for instruction in the latest and most economical methods of farming, the university, in conjunction with the Southern Pacific Railroad, has arranged to bring the instruction to the farmers.

At 12:30 o'clock p.m. today a special agricultural and horticultural demonstration train of seven coaches will reach Los Angeles, about midway on its journey through all the important farming country of Southern California. Together with its elaborate and comprehensive exhibits of crops, soils, fertilizers, animal industries, horticulture and viticulture, irrigation, plant diseases, home economics, etc., the train of twenty-seven experts, demonstrators and instructors, the train in reality comprises a complete course in scientific agriculture, boiled down small.

The demonstration train will lie on a switch in the yards of the Arcade station until Monday morning, when it leaves for Duarte. At 1:30 o'clock this afternoon a meeting for practical discussion and demonstration will be held, lasting until 4 o'clock. Every body that is interested in up-to-date farming and the best ways of making it worth grow where only one grew before is invited to be there.

WHAT IS SHOWN. Specifically, the agronomy division of the college of agriculture will exhibit all kinds of cereals, forage and cover crops together with demonstration of practical ways for increasing the yield of grain. Ways to preserve and increase the fertility of the grain soils and the practical methods to follow in so-called "dry farming" will get special attention. The large exhibit of soils proper is intended to make clear their essential and important relations to rainfall, rooting of plants, plowing, irrigation, and the general chemical and bacteriological conditions existing in fertile and well-nourished soils. In this connection, also, a complete exhibit of fertilizers is provided, together with demonstrations as to their use in relation to different soils, etc.

The animal industries exhibit set forth the most advanced ideas in the breeding, handling and care of live stock. Buildings, sties, modern appliances and animal products are shown in elaborate detail. Veterinary science as specifically applied to horses, dairy and beef cattle, swine and poultry, their diseases and treatment, will be demonstrated and illustrated. One entire exhibit is devoted to modern methods of dairying, including testing, sanitation, separating, cooling and marketing. Another treats in detail of practical methods of raising, feeding and caring for money-making flocks of poultry.

VINES AND TREES. Horticulture and viticulture, applying especially to conditions which prevail locally, are fully covered, special attention being directed to the olive and eucalyptus industry. The best methods of pruning, grafting, budding, the choice and care of young trees, spraying, etc., will be shown by demonstration. In this connection there is an exhibit of harmful entomological and parasitological specimens of great interest. Plant diseases of every variety, the kinds of plants attacked by each and the best way to treat them are fully elaborated. There is, in addition, a large exhibit of native birds and mammals whose activities, habits and uses are of importance to the farmer. Their characteristics are fully explained, as are methods for encouraging the beneficial and discouraging the harmful kinds.

The irrigation exhibit includes models of irrigation implements and of devices for the economic distribution of water and for preparing the land for it. Charts and photographs illustrate modern irrigation practice in the best and most economical use of water. The demonstration train left Owensio Thursday and has already given eight demonstrations. Altogether it will make forty-seven stops, including practically every town of importance in the citrus belt and in Imperial Valley.

Portable Education for California Farmers. Interior view of one of the seven coaches of the special agricultural and horticultural demonstration train, which is sent through the State by the Southern Pacific Railroad and the University of California. It will arrive in Los Angeles at 12:30 p.m. today and will be here until Monday morning. The exhibit here shown is that of veterinary science.

PERSONAL.

R. E. Miller, president of the Owl Drug Company, is registered at the Van Nuys from Menlo Park. F. W. Wood, who has land interests near Prescott, is a guest at the Angelus. George N. Reed, a manufacturer of mill machinery, is registered at the Lankershim, from Oil City, Pa. His wife is with him. B. C. Ireland, tea, coffee and spice importer of San Francisco, is staying at the Hollenbeck.
